

About the Presenters:

Amy Pickering, Senior Manager, Audit, PWC - Amy works on a wide range of private equity clients and London listed funds. Amy is passionate about sustainability and responsible investment and serves as the impact assurance and Climate Change & Audit specialist in the PwC Guernsey office, and has a focus on corporate and non-financial reporting.

Ali Cambray, Sustainability and Climate Change Specialist, PWC - Ali is PwC Channel Islands' Sustainability & Climate Change specialist. Ali leads the CI firm's work on ESG and climate change with financial services, predominantly asset and wealth management clients. She has a particular focus on reporting and disclosures, across PRI, TCFD, the Sustainable Finance Disclosure Regulation, and impact assessment frameworks. Ali has 20 years experience of sustainability and climate change strategy, policy and programme management. Formerly part of PwC UK's Sustainability & Climate Change practice, she spent 7 years working on a major climate and development initiative, across 15 emerging economies and prior to joining PwC in Jersey, she worked on environmental policy.

Brief Synopsis of Presentation: Where to start with ESG reporting, an overview of available frameworks with a focus on mandatory reporting requirements, i.e. TCFD reporting.
